Completed on Saturday, 2 May 2026, 8:51 AM

Time taken 4 mins 41 secs

Grade 10.00 out of 10.00 (100%)

Question 1

Correct

Mark 1.00 out of 1.00

Which activation function outputs only 0 or 1?

- ☒ a. C) Binary Step ✓
- ☐ b. A) ReLU
- ☐ c. D) Tanh
- ☐ d. B) Sigmoid

Your answer is correct.

The correct answer is:

C) Binary Step

Question 2

Correct

Mark 1.00 out of 1.00

What does the activation function mainly do?

- ☐ a. A) Adjust weights
- ☒ b. B) Decide whether neuron fires ✓
- ☐ c. D) Reduce error
- ☐ d. C) Initialize weights

Your answer is correct.

The correct answer is:

B) Decide whether neuron fires

Question 3

Correct

Mark 1.00 out of 1.00

Why is Binary Step function not suitable for [deep learning](#)?

- ☐ a. A) Too slow
- ☐ b. D) Needs more data
- ☐ c. C) Too complex
- ☒ d. B) Cannot update weights (zero derivative) ✓

Your answer is correct.

The correct answer is:

B) Cannot update weights (zero derivative)

Question 4

Correct

Mark 1.00 out of 1.00

What is the main problem of Linear Activation Function?

- ☒ a. B) Cannot model non-linear data ✓
- ☐ b. A) Too fast
- ☐ c. D) Needs normalization
- ☐ d. C) Produces negative values

Your answer is correct.

The correct answer is:

B) Cannot model non-linear data

Question 5

Correct

Mark 1.00 out of 1.00

Which activation function range is (-1 to 1)?

- ☐ a. B) ReLU
- ☐ b. A) Sigmoid
- ☐ c. D) Softmax
- ☒ d. C) Tanh ✓

Your answer is correct.

The correct answer is:

C) Tanh

Question 6

Correct

Mark 1.00 out of 1.00

Which activation function is most commonly used in hidden layers?

- ☒ a. B) ReLU ✓
- ☐ b. D) High cost
- ☐ c. C) Dead neurons
- ☐ d. A) Sigmoid

Your answer is correct.

The correct answers are:

B) ReLU,

C) Dead neurons

Question 7

Correct

Mark 1.00 out of 1.00

Which function solves the "dead neuron" problem?

- ☒ a. C) Leaky ReLU ✓
- ☐ b. A) Sigmoid
- ☐ c. B) Tanh
- ☐ d. D) Softmax

Your answer is correct.

The correct answer is:

C) Leaky ReLU

Question 8

Correct

Mark 1.00 out of 1.00

What is a shallow neural network?

- ☐ a. D) Only output layer
- ☐ b. B) No input layer
- ☒ c. C) No hidden layers ✓
- ☐ d. A) Many hidden layers

Your answer is correct.

The correct answer is:

C) No hidden layers

Question 9

Correct

Mark 1.00 out of 1.00

What does the derivative help in backpropagation?

- ☒ a. C) Measure effect of change ✓
- ☐ b. B) Measure error
- ☐ c. D) Increase learning rate
- ☐ d. A) Reduce data size

Your answer is correct.

The correct answer is:

C) Measure effect of change

Question 10

Correct

Mark 1.00 out of 1.00

Which problem is associated with Sigmoid function?

- ☐ a. D) Overfitting
- ☐ b. C) Exploding gradient
- ☐ c. A) Dead neurons
- ☒ d. B) Vanishing gradient ✓

Your answer is correct.

The correct answer is:

B) Vanishing gradient
